# Kingspan Supercut CNC Machine

FAST & FULLY AUTOMATED CNC CUTTING MACHINE  
FOR PRE-INSULATED HVAC DUCTWORK

- User-friendly operation
- Faster production time
- Reduced panel wastage
- No dust
- No noise
- Reduced costs

*Low Energy –  
Low Carbon Buildings*

# Kingspan Supercut CNC Machine

## Introduction

The *Kingspan* Supercut CNC Machine is manufactured with the latest technologies for plotting and cutting straight and dynamic shapes from insulation panels, used in the fabrication of pre-insulated HVAC ductwork.

## Features

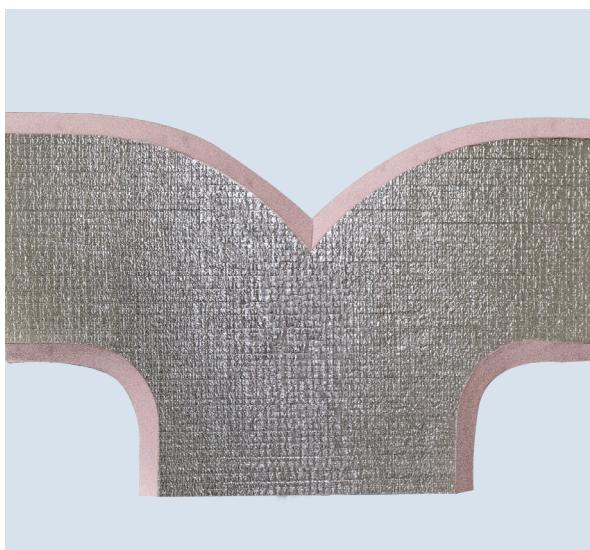

The *Kingspan* Supercut CNC Machine has numerous features, which differentiates it from other automated CNC cutting machines. Features include, but are not limited to, the following:

- five controlled and interpolated axis all equipped with brushless motor;
- marking unit to number parts for easy sorting and identification;
- moving head;
- ball-screw movement for X and Y axis;
- one cutting unit for all angles;
- cuts both sides of the panel;
- detailed report and label printing; and
- USB port system.

## Installation and Training

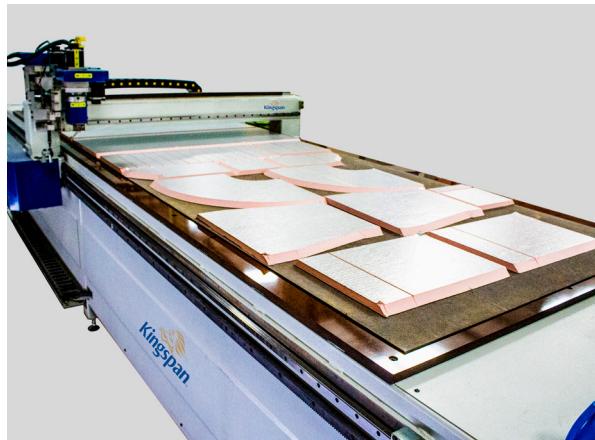

At no extra cost, the technician will come and install, calibrate and test the machine. During and after the one year warranty period for the non wear-and-tear parts, the technician can also offer maintenance and service visits.

To operate the machine, a competent Supercut CNC machine operator, with a ductwork background, is recommended.

## Product Data

Property	Unit	Value
Panel Thickness	mm	10 - 30
Max. Panel Width	mm	1200
Max. Panel Length	mm	4000
Aluminium Thickness	micron	Up to 200
Weight of Machine	kg	1500
Nominal Size of Machine	m	5 x 2.1 x 1.75 h
Power Supply		3 Phase 400 volts Hz 50
